Concerning: Legal opinion

Legitimate user,

In my capacity as a lawyer of the group of companies, owners of this Crowdfunding platform, I can clarify that I asked my European colleagues to study the rules on which this platform is founded, make a survey about how users make use of the platform and present potential recommendations.

Because of bar regulations it isn't possible for me and my colleagues to disclose their legal opinion, but I can assure that, definitely after the platform was adapted due to the recommendations of my colleagues, my colleagues are of the opinion that this platform meets with the directly applicable rules and unwritten rules, so in their opinion the platform and more specific the Starway system doesn't represent a pyramidal structure.

So far,

Mr Johan L. Vissers
Attorney at law
