

## **Is your project really important to you?**

The whole team is happy to announce the new features of the platform that has been evolving for almost 3 years.

We have worked hard to provide a powerful tool to help you raise funds for your projects. Today we are pleased to introduce Community Collect, a platform of Community Tools that allow members to work with the community of their choice.

We have removed the Starway in favor of a number of possible donations to be made. So instead of being able to reach the 7.3-level, we now have the opportunity to make 57 donations.

We have the option to stop redistributing some of our donations as soon as we wish and can withdraw them at any time.

We now have a legal report in Spain where we are based and a legal report in France for Community Collect.

Now a project leader can register on the platform only to collect donations freely, he has no obligation to join the community sharing, for this we have created a registration in two steps: at first, the project leader submits project online and pays project setup costs. In a second time if he wishes, he can join the community of his choice.

We have also worked on the withdrawal possibilities by offering you 3 different methods: ADVcash, bank transfer and the possibility of legally using your available balance to pay the first donation of a new project holder.

To allow you to take advantage of these new features, Community Collect is happy to offer you the registration fee of €41.60 allowing you to deposit your project for free online and start your crowdfunding campaign. However, if you want to join one of the sharing Communities, you will only have your first donation to pay, get closer to an active project holder on Community Collect.

Visit the Community Collect website

Register without paying the registration fee

ATTENTION, for the offer to be valid, you must register with the same email address, the same name and surname as those used on Crowdfunding International.

The validity of the offer will expire on September 30, 2018.

**The Community Collect team wishes you a very good crowdfunding.  
Please contact us if you have any questions.**
